Description	
Subtlex::Tray has a focus method, which could be useful to access them using Grabs, if tray icons expected key events... and they don't.	
<pre>10:31:23 @unexist fauno: That is what I told you to your request of focussing a tray - this is pointless. Tray icons normally don't expect focus without click. 10:31:45 * fauno remembers 10:33:18 @unexist I can try to add a click method like: Subtlex::Tray['foo'].click 10:33:57 fauno mouseless freaks will remember your name, unexist :D</pre>
