subtle - Feature #162

Dynamic views

12/19/2010 01:37 PM - Jonathan Dahan

Status:	Fixed	**Start date:**	12/19/2010
Priority:	Urgent	**Due date:**	
Assignee:	Christoph Kappel	**% Done:**	100%
Category:	Feature	**Estimated time:**	0.00 hour
Target version:			

Description

Add optional property dynamic for views. The documentation would look something like the following

```
#
# == Views
#
# Views are the virtual desktops in subtle, they show all windows that share a
# tag with them. Windows that have no tag will be visible on the default view
# which is the view with the default tag or the first defined view when this
# tag isn't set.
#
# === Properties
#
# Each view can behave differently with respect to tagged clients that it matches
#
# [*dynamic*]   Defaults to false, if set true this view will be hidden when there
#               are no clients with a matching tag
#
# [*tags*]      Match tags using regular expressions, just like when tagging clients
#
# === Link
#
# http://subforge.org/wiki/subtle/Tagging
#

view '0'
view 'dev' do
  tags 'terms|editor'
  dynamic true
end
view 'read', 'pdf|browser'
view 'gimp', 'gimp_.*'
view 'down', 'torrent'
```

History
