<b>Category:</b>	Feature	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Omicron		
<b>Description</b>			
The only thing left, that influences the appearance of <a href="#">subtle</a> that is not included in <a href="#">styles</a> is the screen/panel config. That also means that the subtle style is obsolete, background will be removed in favor of e.g. xsetroot and the client margin will be the strut option.
